

Recoverable Grant Term Sheet - 50k Example

1. Grantor (Funder):

Green Future Foundation (GFF)

2. Grantee (Recipient):

Nearly Free Energy Co-op (NFE)

3. Purpose of Grant:

To fund the capital expenditure and initial setup of a 20 kW solar microgrid serving 50 households in [Community Name], Uganda.

4. Grant Amount:

\$50,000 USD

5. Disbursement Schedule:

- 40% upfront upon signing agreement
- 30% upon installation of core infrastructure
- 30% upon commissioning and first billing cycle

?? 6. Recoverability Clause (Repayment Terms):

Trigger	Repayment Terms
If the microgrid achieves \geq \$1,000/month in net revenue for 6 consecutive months within 3 years	Grantee repays the full grant amount over 4 years, at 0% interest
If the project is not commercially viable by year 3 (e.g., $<$ \$1,000/month in net revenue)	No repayment is required

Trigger	Repayment Terms
If the grantee secures follow-on grant investment of > \$100,000	Grantee repays full grant or 10% of the investment value, whichever is lower

7. Use of Funds:

- Solar panels, batteries, smart meters, inverters
- Site preparation and installation labor
- Community training and billing setup
- Product development for Microgrid OS

8. Reporting Requirements:

Quarterly reports for 3 years on:

- Energy generated and distributed
- Financial performance
- Number of customers served
- Maintenance issues and resolutions

9. Intellectual Property (IP):

All software or monitoring systems developed under this project must remain open-source and licensed under AGPL or GPL or any other [Free Software license](#)

10. Dispute Resolution:

Mediation first, then arbitration in Uganda under the Uganda Centre for Arbitration and Dispute Resolution (CADER).
